FRUIT TREES

We all realize the importance now of a few fruit trees about the place — their healthful properties, the added enjoyment of fruits properly ripened on the trees. Also some of our tastiest varieties are practically unobtainable in the markets.

BARTLETT PEAR

MAKE MORE PROFITS WITH CARLTON PEARS

The pear thrives over a wide range—being able to stand more summer heat than the apple. The French pear root also withstands heavy wet soils much better than most fruits. The popular Bartlett rules supreme as a summer pear, but some of our fall and winter varieties are even finer in quality and flavor, and all lovers of fine pears should include some of these in their home gardens. Unlike most other fruits, the pear develops much better quality when ripened off the tree, and the fruit should be picked before it begins to soften.

Special Note: The New CANNERY RULING eliminates many of the short necked strains of Bartletts. Plant our new strain of Bartlett which easily qualifies in length and diameter.

Best Shipping Sorts: Bartlett, Bosc, Comice, Anjou, Winter Nellis.

Cannery Sort: Bartlett.

PEARS

SUMMER VARIETIES

BARTLETT—A well-known favorite for eating fresh or canning. Large size, buttery, juicy and high flavored. August to September. See colored illustration.

AUTUMN AND WINTER VARIETIES

BEURRE D'ANJOU—A fine pear; rather large; flesh yellowish white, rich and vinous flavored. Tree good grower and productive. October and November.

BEURRE BOSCH—Large, deep yellow, russet colored and long neck. Half melting, juicy, delicious with pleasant odor. Good shipper. September.

DOYENNE DU COMICE—Skin rich yellow at maturity, often lightly shaded with crimson. Flesh white, fine grained and melting, sweet and rich. Very good. October to November.

GORHAM—Large size, golden yellow when ripe, resembles Bartlett, ripens about two weeks later; fine flavored and firm texture.

FLEMISH BEAUTY—Large fruit; pale yellow, becoming reddish brown at maturity on the sunny side. Flesh yellowish white and juicy. Excellent for canning. Late September.

WINTER NELIS—Tree hardy and thrifty. A delicious winter pear of medium size; flesh yellowish white, very juicy when ripe. One of the very finest for eating fresh. December to February.

WINTER BARLETT—Fruit large, closely resembling the famous Bartlett in shape and appearance but ripening considerably later. Flavor almost identical with the Bartlett.

**PROVEN
OLD FAVORITES
AND NEW**

Our stock includes the best of the proven old favorites as well as the dependable newer varieties, covering a range of seasons and uses to meet all requirements.

The following profitable new varieties of merit should be planted by commercial planters desiring the best: Bright Red Rome, Solid Red Delicious, Yellow Delicious, Red Gravenstein, Red Spy, and Yellow Transparent. These are money makers. Order today.

APPLES

PRICES: Please refer to condensed price list, page 3.

Apples in this catalog are classified according to their seasons of maturity or use, such as "Summer", "Fall" and "Winter".

SUMMER VARIETIES

YELLOW TRANSPARENT—Earliest summer apple; always in demand for sauce or pies. Skin golden yellow; flesh white, fine grained, juicy, crisp, tender and sub-acid.

GRAVENSTEIN—An old-time favorite cooking apple in any form, especially fine for pies; crisp and juicy. Hardy and bears young.

RED JUNE—Always a favorite variety. Skin attractive red; flesh juicy, somewhat tart flavored. Hardy and productive.

RED GRAVENSTEIN—Bright red, juicy flesh, excellent flavor, good shipper and desirable as a commercial sort.

WHITE ASTRACHAN—An early, large greenish-white apple. Flesh highly acid, making it one of the best cooking apples.

FALL VARIETIES

KING—Largest size, oblate, yellowish grounded, striped and covered with bright red. Fragrant juicy smelling. Flesh very crisp, tender, rich, fine flavor.

YELLOW BELLFLOWER—Oblong ribbed fruits. Yellow skin touched with green and blushed pink. Cooking variety.

WINTER VARIETIES

BRIGHT RED ROME—A magnificent "double red" Rome Beauty; very early bearer, excellent shipper; a sure cropper.

DELICIOUS—This is the original Delicious and all that is claimed for it. It is a thrifty grower, hardy and prolific bearer. Highly flavored and excellent quality and a good keeper.

A FOUR-YEAR-OLD APPLE TREE SHOWING GROWTH AND HEAVY BEARING QUALITY OF CARLTON TREES

APPLES

(Continued)

RED DELICIOUS—Large brilliant red, flavored, sweet, lightly touched with acid. Flesh fine grained, crisp and juicy. Preferred for eating. Good keeping qualities.

YELLOW DELICIOUS—A wonderful apple; an early bearer of beautiful yellow apples; good shipper.

NORTHERN SPY—A fine, large striped red, tender, mild, juicy apple, excellent eating or cooking. Keeps well up to June. Strong growing trees.

RED SPY—New, from New York Experiment station; typical Spy except in color; solid bright red; very hardy and productive.

ROME BEAUTY—Large, yellow and bright red. Flesh yellowish, tender, juicy, sub-acid. Good bearer, excellent cooking apple.

YELLOW NEWTOWN PIPPIN—This stands as high as any apple; a market and cooking variety. One of the best keepers known. Flesh rich, juicy and crisp.

SPITZENBERG—Medium to large, deep red, spicy, crisp flavor, an old favorite, good cooking and eating. Fine keeper.

JONATHAN—Red and yellow, juicy, rich flavor, tender flesh. Very productive. Good commercial apple. Fine eating.

RED JONATHAN—Same type and quality of Jonathan, but a solid red highly colored apple.

WINTER BANANA—Large, clear waxy yellow with blush, fine tart flavor, good cooking and eating, crisp.

WINESAP—One of the standard commercial varieties due to its excellent keeping qualities. Dark red skin; juicy, sub-acid flavored flesh.

JONATHAN

CRAB APPLES

PRICES: Please refer to condensed price list, page 3.

HYSLOP—September to October. Fruit medium; yellow with shadings crimson maroon; flesh fine, firm, yellow, astringent; bears abundantly. Ornamental. One of the most desirable sorts for culinary purposes.

RED SIBERIAN—An inch in diameter; clusters; bears young and abundantly. August to September.

WHITNEY—August. Fruit large; yellow, stripped with red and covered with red on sunny side; flesh yellow, very juicy and fine grained; flavor rich and almost sweet.

DELICIOUS

WINESAP

SATSUMA PLUM

PRUNES

PRICES: Please refer to condensed price list, page 3.

STANDARD COMMERCIAL DRYING SORTS—

Italian, Coates 14-18, Date, Improved French, Burton.

The Budwood for our prune trees is selected from the finest and best strains on the Pacific Slope.

COATES 14-18; DATE PRUNE—Sweeter, larger than French; fine for drying. Reddish purple, juicy.

HUNGARIAN—Largest size, beautiful bright red, one of the best for marketing; not good for drying. September.

ITALIAN (Fellenberg)—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety: September.

EARLY ITALIAN—Two weeks ahead of Italian. This is a proven profitable sort. Fruit identical in shape and color to common Italian, but slightly larger

SUGAR—Early August. Drying and fresh shipping. The earliest prune. Fruit medium to large, oval, dark purple. Flesh sweet, and of medium quality. A good pollinizer.

PLUMS

PRICES: Please refer to condensed price list, page 3.

BEAUTY—Early June. Shipping and home orchard. The earliest Japanese plum, important commercial variety. Fruit medium size, heart shaped, and crimson. The flavor is good. Tree productive; self-fertile.

DAMSON—August-September. Local market and home orchard. A tart plum very popular for culinary uses. Fruit small, roundish, dark purple with heavy bloom. Very productive.

DUARTE—Late July. Shipping. A blood-red plum of late introduction. Fruit large and elongated; skin a dull red. Flesh firm, deep red, and good quality.

GREENGAGE—A medium small greenish yellow plum of high quality. Midseason.

PEACH PLUM—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.

SANTA ROSA—Large; purplish crimson; flesh yellow, mottled crimson; very good quality. Excellent for all purposes. Early July.

SATSUMA—A very large and well flavored plum with blood red flesh; skin blush red; very small pit; vigorous and productive. A well known variety much in demand for home canning. July.

YELLOW EGG—Ripens end of August. A large, handsome yellow plum. Good for home use or market. Golden yellow covered with thick bloom. Flesh firm, sweet and juicy.

PRUNES

APRICOTS

APRICOTS

PRICES: Please refer to condensed price list, page 3.

TILTON—Fruit large size, rich apricot color, flavor of the highest quality. Bears immense crops, either for canning or drying.

PEACH APRICOT—An extremely early, very large, handsome color, firm, rich and highly flavored. Shipping sort.

WENATCHEE MOORPARK—One of the largest size apricots. Color deep apricot with brownish red when ripened in the sun. Flesh firm, juicy and parting from the pit, pleasant sweet flavor.

MORMON (or Chinese Apricot)—Hardest of all apricots. The fruit is large size with a firm, fine grained texture, exceptionally sweet flavor and retains its rich apricot color when canned.

FIGS

OREGON GROWN and ACCLIMATED

Two year old.....	Each \$2.00
One year old.....	1.50

LATTARULA—A sweet white flesh fig of excellent flavor and quality. White skin. Bears first year. Ripens two crops a season. First crop first part of August, second crop October. Used for eating fresh or preserves. Has proven very satisfactory for the Northwest. For best crops do not prune.

BROWN TURKEY—The fruits are very large and long, a rich purplish-brown in color, becoming deeper purple as they mature, with rich strawberry-red flesh, fine grained, sweet and juicy. It seems to bear equally well, whether it be directly on the coast or in the interior or desert valleys. Larger and finer figs will be produced if the trees are heavily pruned back in the winter.

FIGS—CALIFORNIA GROWN

3 to 4 ft.....	1.50
4 to 6 ft.....	1.50

VARIETIES—Kadota, 'Black Mission and 'White Adriatic.

QUINCE

QUINCES

PRICES: Please refer to condensed price list, page 3.

PINEAPPLE—Flavor is suggestive of pineapple; fruit resembles Orange quince; making superior jelly; can be eaten raw, has a most delicious flavor, not equaled by any other quince.

PEACHES

PRICES: Please refer to condensed price list, page 3.

IMPROVED ELBERTA

PLANT PEACHES FOR QUICKER PROFITS

All peaches listed are Freestones unless the word cling follows the name.

Best commercial peach sorts for the Northwest and Pacific Coast. All Freestones.

Improved Early Elberta, J. H. Hale, Rio Oso Gem, Rochester, Elberta, Golden Jubilee, and Hale Haven. "These are money makers."

COMMERCIAL SORTS IN RIPENING ORDER

MAYFLOWER—One of the earliest peaches. Medium sized, creamy white fruits, mottled with dark red; firm, white, juicy flesh.

HALES EARLY—One of the very best early white peaches. Skin greenish, splashed with red. Flesh white, juicy and sweet.

TRIUMPH—An extra early yellow fleshed peach. Skin very tender; juicy and sweet. Freestone.

GOLDEN JUBILEE—The wonderful new yellow freestone ripening a week to 10 days ahead of Rochester, making it a highly profitable sort of excellent quality. Is firm, rich in sugar and delightfully fragrant.

ROCHESTER—Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow, freestone, good size, very sweet and fine flavor. Requires only half the usual amount of sugar for canning.

IMPROVED ROCHESTER—Yellow freestone, an especially fine type of the Rochester.

SLAPPY—Fruit yellow, good keeper; excellent flavor, fine grained, rich. Hardy early yellow peach. Excellent quality.

CHAMPION—Best of white freestone varieties. Skin creamy-white with red flesh. Extremely hardy and of uniform good quality.

CRAWFORD'S EARLY—Has all characteristics that gratify taste. Color, rich red splashed and mottled with darker red and golden yellow. Flesh is beautiful and perfectly free from stone. Matures in mid-season. Vigorous and productive.

HALE HAVEN—A wonderful new, extremely hardy shipping peach of recent introduction. Ripening at the right time, between Rochester and Improved Elberta. An immense golden yellow peach with a red cheek and a strong protective skin. This fine grained, firm, rich, golden fleshed freestone bears very heavy crops at an early age. Very profitable. An improved South Haven.

IMPROVED EARLY ELBERTA—This peach is the "Queen" of all canning peaches, and no doubt the biggest selling peach on the market. Fruit is a beautiful golden yellow, blending into a glorious deep pink on the sunny side; a strong protecting skin; exceptionally heavy bearer and a wonderful pollenizer for the J. H. Hale. Ripens about two weeks earlier than Elberta. A truly super-quality canning peach.

J. H. HALE—Peach growers have demonstrated during the past several years that this is a profitable variety. Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm and yet tender when eaten; flavor is unexcelled. Fruit ships exceedingly well; remains on the tree in a firm condition for a longer time than any other freestone. **The true type J. H. Hale.**

ELBERTA—Large yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.

J. H. HALE

Rhododendrons

Add 50c per plant for packing and postage.

ALICE—Rich deep pink with large conical trusses. One of the best pinks, excellent foliage and compact growth. 15-18 inch \$4.50 each.

COMMANDER—Rosy-red flowers of good size. 15-18 inch \$4.50 each.

CYNTHIA—Large rosy-crimson flowers. Strong growth. 15-18 inch \$4.50 each.

ISABEL—Light rose, free bloomer. 12-15 inch \$4.00 each.

LORD ROBERTS—Dark red, black spots and dark throat. 12-15 inch \$4.00 each.

MICHAEL WATERER—Bright crimson. 12-15 inch \$4.00 each.

MADAM MASON—White, yellow blotch. 12-15 inch \$4.00 each.

PINK PEARL—Large trusses of delicate shell pink flowers. Vigorous grower. 15-18 inch \$4.50 each.

RAVIGO—Medium size trusses of orchid-pink flowers. 12-15 inch \$4.00 each.

WHITE PEARL—Slightly blush, changing to pure white. 12-15 inch \$4.00 each.

PONTICUM—Lavender to purple. 12-15 inch \$3.00 each.

NOTE: We have larger size plants and other varieties on display at our Forest Grove Sales Yard. Visitors always welcome.

CYNTHIA

The wealth of dark green glossy foliage serves as a background to the numerous large clusters of gorgeous flowers which appear in spring and early summer. Red, Pink, White and Purple in all shades and tints.

PONTICUM

ALICE

OVER HALF A CENTURY

Carlton Nursery Company

FOREST GROVE, OREGON

LILACS

FRENCH BUDDED LILACS

The French Lilaes are far superior to the old variety, or common Lilac. They produce immense clusters of high colored, fragrant blossoms, and bloom at an early age. We have them in both Double and Single type, in an assortment of colors. Two or more colors grouped together make an unusually attractive display.

Strong Branched Specimen Plants: Each \$1.50 postpaid; 3 for \$4.00 postpaid; 10 for \$12.00 postpaid.

ALPHONSE LAVALLE—Pyramidal clusters of double bluish lilac flowers.

BELLE DE NANCY—Great panicles of double satiny rose blooms, white center.

BUFFON—Single pink; very outstanding, large clusters of blossoms.

CHARLES JOLY—Double purplish red. Very attractive, tall grower.

LAMARCK—Double pink-mauve. Very choice.

MONT BLANC—Large single white, very fragrant.

EMILE GENTIL—Double cobalt blue, large clusters.

HENRI ROBERT—Largest double flowers of purplish-blue.

NEGRO—Single deep wine; heavy bloomer.

STAD. DE ROTHPLETZ—Double deep purple; extra choice.

OLIVER DE SERRES—Double deep blue; one of the best.

Planting Note: Plant the union of top and root stock about four inches below the surface of the soil.

Note: Sizes and varieties listed in our Catalogue, page 16, are not available.

VISIT OUR NURSERY SALES YARD

On Baseline Road — Forest Grove.

Because our catalogue space is limited, we cannot list all the varieties and sizes of trees and plants which we have on display at our sales yard. For specimen plants of Rhododendrons, Camellias, Azaleas, Pink Dogwood, Magnolias, Tree Roses, Tree Wisteria, Flowering Shrubs, Flower Trees, and Evergreens of all kinds see our display.

Superior Quality at Reasonable Prices.

If you do not have our "Planting Guide" Descriptive Catalogue a copy will be mailed to you on request.

WE PAY SHIPPING CHARGES on all bare root trees and plants. **EVERGREENS** must be dug and shipped with the roots encased in a ball of earth, adding extra weight and requiring special packing to assure successful transplanting. In ordering Camellias, Rhododendrons and Azaleas from this list please add the shipping charge, which will help defray the extra cost of handling and shipping. We will be glad to quote larger size plants and other Evergreens to be shipped freight collect.

COMBINATION FRUIT TREES

A single tree with three varieties of fruit ripening over a long season and producing fruit for every purpose.

SWEET CHERRY—Three varieties on one tree. A pink canning and Maraschina cherry; a supreme quality black cherry, and a pollenizer to insure heavy production. Two-year-old, heavy-branched tree: \$4.00 each express prepaid.

AZALEA MOLLIS

Chinese Azalea varying in color from bright orange to flame. Flowers borne in large clusters and are very colorful. The most popular Azalea. Flowers April, May and June — colorful fall foliage. 9-12 inch plants \$1.25 each; 12-15 inch \$1.75 each; 15-18 inch \$2.50 each.

Add 35c per plant for packing and postage.

PATENTED BUSH ROSES

No. 1—TWO-YEAR FIELD GROWN BUSHES

Standard varieties—Please refer to our Catalogue, pages 20 to 22 for complete rose listing with descriptions and prices.

APRICOT QUEEN (Pat. No. 464). A lovely combination of orange and apricot at the base of petals, merging to salmon rose. Long pointed buds, with regular well placed petal arrangement in the open flower. Handsome leathery foliage. Each \$1.25 postpaid.

FRED EDMONDS (PP). Beautiful long-shaped buds of burnt-orange open to glorious 25-petaled blooms of vivid, glowing coppery orange color which slowly changes to apricot. The plants are rather spreading in habit and have a glistening, olive-green foliage. Each \$2.00 postpaid.

THE CHIEF
(Pat. No. 456)

HORACE McFARLAND (PP). Large deep apricot buds open to beautifully formed buff-salmon spicily scented blooms. This sturdy upright-growing plant has large leathery foliage and blooms almost continuously from June to hard frost. Each \$2.00 postpaid.

MME. CHIANG KAI-SHEK (PP). Buds large, long-pointed opening to long-lasting very large flowers of Empire yellow fading to lemon yellow as the flower matures. Excellent leathery, glossy dark green foliage covers this vigorous bush. Each \$2.00 postpaid.

MME MARIE CURIE (PAF). This free flowering variety came out of France before war prohibited its export and has proven such a fine rose that it was awarded third place in the All-American Rose Selections. Tall and bushy growth with orange buds opening to medium size golden yellow flowers. Each \$1.50 postpaid.

PEARL S. BUCK (Pat. No. 423). Leathery dark green foliage makes a perfect foil for the long-pointed buds of a rich orange hue which open to a soft gold suffused with apricot. The plant is generous and free-blooming and the long stems are fine for cutting. Each \$1.50 postpaid.

ROSE BAMPON (Pat. No. 425). An intense shade of China red retaining its depth of color throughout the long life of the blooms. This plant is very hardy and disease resistant with rich dark green foliage. Each \$1.50 postpaid.

STERLING (Pat. No. 21). Long-pointed buds of striking pink, opening to well-formed flowers with gold at the base of the petals. Each \$1.25 postpaid.

THE CHIEF (Pat. No. 456). Extremely long, large buds of delightful form and rich color. Deep rose to flame opening to a full flower of flame, coral and copper, becoming orange-pink as the flower opens. Rich fruity fragrance. Each \$1.25 postpaid.

Camellias

Beautiful wax-like flowers—Reds, Pinks, Whites and Variegated. Attractive glossy evergreen foliage provides a charming background. Camellias are sturdy growers and most desirable.

Add 35c per plant for packing and postage.

PINK VARIETIES

KUMASAKA—Very large double, deep rosy-pink flowers. 12-15 inch \$1.75 each.

SARAH FROST—Large semi-double pink. 18-24 inch \$3.25 each.

PINK PERFECTION—Very double, perfectly formed flowers of shell pink. 12-15 inch plants \$1.25 each.

PINK LADY—Single, deep pink flowers of medium size. 12-15 inch \$1.75 each; 15-18 inch \$2.75 each.

WHITE VARIETIES

PURITY—Large, double, ivory white flowers. 12-15 inch \$2.25 each; 18-24 inch \$3.25 each.

MAGNOLIA ALBA—Semi-double, shell pink flowers fading to white. 12-15 inch \$2.25 each.

VARIEGATED

DAIKAIGURA—Large bright rose flowers of peony form with splashes of white. Flowers appear through winter and early spring. 12-15 inch \$1.75 each.

DOC D' ORLEANS—Peony form, white dotted, pink striped. 12-15 inch \$1.75 each; 15-18 inch \$2.75 each.

MIKENJAKU—Immense deep rose flowers splashed with white. 15-18 inch \$2.25 each.

BELLE ROMANA—Large double pink flowers striped with white and crimson. 15-18 inch \$1.75 each; 18-24 inch \$2.75 each.

WAUKANOURA

RED VARIETIES

CHEERFUL—Double rosy-red flowers, free bloomer. 12-15 inch plants \$1.25 each; 18-24 inch \$3.00 each.

MME. LEBOIS—Very large double red flowers. 12-15 inch \$1.75 each.

WAUKANOURA—Semi-double, rosy-red flowers. Prominent golden stamens. 12-15 inch plants \$1.75 each; 18-24 inch \$3.25 each.

CHEERFUL

KUMASAKA

PEACHES

(Continued)

RIO OSO GEM PEACH
(U. S. Plant Patent No. 84)
Add 10c per Tree

A splendid new peach that ripens during the period when there is no other peach on the market.

Rio Oso Gem ripens ten days to two weeks after J. H. Hale. Has extreme large size of J. H. Hale, is more highly colored, finer grained in texture, firmer and of better quality than J. H. Hale.

MUIR LATE—Drying. Fruit large to very large. Skin yellow, easily peeled. Flesh color yellow to pit, tender, sweet and mild. A good bearer; resistant to Curl leaf.

INDIAN BLOOD—Home use. Deep red flesh. Popular for pickling and other culinary uses.

TUSCAN—Cling, commercial canning, shipping, and home orchard. Fruit of good size and attractive. Flesh yellow, with some red at pit. Flavor good.

LATE CRAWFORD—Shipping, drying, and home orchard. One of our oldest varieties, and still popular as a home orchard sort. A large yellow freestone of excellent quality.

ORANGE CLING—Home canning and shipping. Fruit very large; attractive. Flesh yellow and of good quality. Very productive.

SALWAY—Shipping, drying and home orchard. Fruit large. Skin greenish yellow with blush. Flesh yellow, of fairly good quality.

RIO OSO GEM PEACH

MONTMORENCY CHERRY

Sour Cherries

PRICES: Please refer to condensed price list, page 3.

SOUR CANNERY VARIETY—Montmorency Large. Our Montmorency Large buds are taken from the best proven block on the Coast and are highly recommended by one of the leading canneries. Plant this type of Montmorency Large for heavy yields and large profits.

EARLY RICHMOND (Kentish)—Medium size, bright red; flesh melting, juicy and rich acid flavor. Last of June.

ENGLISH MORELLO—Medium to large; blackish red, rich, acid, juicy and good.

LATE DUKE—Fruit large, roundish, rich, dark red, sub-acid. Ripens last of July.

MAY DUKE—One of the best hardy cherries; medium size, dark red, melting, rich and juicy. First of June.

MONTMORENCY—Large. Tree very hardy and immense bearer, fruiting young; regular bearer of fine crops; fruit large, fine flavor, shining red, valuable everywhere.

NECTARINES

PRICES: Please refer to condensed price list, page 3.

In growth, habit, treatment and soils precisely similar to the peach. Valuable for dessert; smooth skin.

BOSTON—Medium; deep yellow, with a bright blush and deep mottlings of red; flesh yellow without any red at the stone; sweet, though not rich, with a pleasant and peculiar flavor. Freestone.

QUETTA—(New, introduced by U. S. Department of Agriculture.) Yellow meated and highly colored. Very hardy.

STANWICK—For many years has been a leading nectarine. Extremely large fruit, the skin pale green, shaded purplish red; the flesh white and juicy, with a most delicious aromatic flavor.

ROYAL ANN CHERRY

CHERRIES

SPECIAL NOTE TO COMMERCIAL ORCHARDISTS—Many beautiful cherry orchards at 6 to 8 years old, quickly commence to die back and carry a lot of unhealthy wood structure, finally dying out completely. Avoid this terrible loss of time and money by buying your commercial cherry orchard from reliable nurseryman. We offer the finest of stock grown from bud selected sorts direct from the very finest cherry orchards in the west. We grow our cherry trees on whole roots of **true mazzard stock**. Many inferior cherry trees are offered annually by unreliable nurserymen. Buy only the best. Ours will stand the test of time.

In planting a cherry orchard care should be taken not to plant trees too close together; select a dry soil for the cherry, as a rule, although it is so hardy a tree that it will thrive in a great variety of soil. Use same care in planting as other trees.

**CARLTON'S
BETTER FRUITS**
Bud-Selected Strains
Productive — Dependable

Sweet Cherries

PRICES: Please refer to condensed price list, Page 3.

Special Note to Commercial Planters—Our cherry trees are grown from heaviest consistent producing orchards. Pollenizers offered are taken from same proven blocks of Royal Ann, Bing, and Lambert.

Commercial Sorts—Bing, Lambert, and Royal Ann.

Pollenizers—Black Republican, Deacon, and Black Tartarian.

BING—Almost as large again as the Black Republican; flesh very solid, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive; a fine shipping and market variety. First of July.

BLACK REPUBLICAN—Fruit dark color; rich, solid and an excellent keeper. Middle of July. Pollenizer.

BLACK TARTARIAN—Very large, purplish black, half tender; flavor mild and pleasant. Tree vigorous, immense bearer. Ripe last of June. Pollenizer.

DEACON—Similar to Black Tartarian in color and size, but superior in texture and shipping qualities. One of the most satisfactory for pollenizing.

LAMBERT—Size very large; form roundish, heart-shaped; color dark purplish red, meaty and of fine texture; semi-cling, small seed; flavor sweet or very mild sub-acid, aromatic, rich. Quality very good and an excellent shipper.

ROYAL ANN (Napoleon)—Fruit large; light yellow with red cheek, very rich, solid, excellent keeper. The leading commercial canning cherry.

BARCELONA—Most widely planted commercial variety. A large, round nut, fully self husking, rich in flavor, kernel uniform in size, clean of pellicle and very prolific when pollenized with about 15 per cent DuChilly and Daviana, alternated by setting every third tree in every third row to a pollenizer. Tree a strong, upright grower.

DU CHILLY—Pollenizer. A large, long nut, about 50 per cent self husking and balance readily husked by machinery or by hand, finest quality demanding a premium over Barcelona, often used as a main commercial crop.

DAVIANA—Pollenizer. A long, striped nut of the DuChilly type, excellent pollenizer for Barcelona and DuChilly; not planted commercially, quality good and tree a very strong, upright grower.

NOTE—We can supply one-year Tip-layer Filbert trees for commercial plantings. Please write for special prices.

4 to 5 ft.....	1.25
5 to 6 ft.....	1.50

Plant two varieties for pollenization.

I.X.L—One of the standard commercial varieties. Hulls easily. Nuts are large and symmetrical. Shell soft, smooth, kernel large and well filled, tree a strong grower.

NONPAREIL—Most popular thin shell variety. Kernel long and narrow and of excellent quality. Tree is a vigorous grower, producing heavy crops of large, well-filled nuts.

NE PLUS ULTRA—An excellent type, good producer, pollenizer, nuts medium to large. Good flavor.

SEEDLING CHESTNUTS

(Bear Heavy Crops)

	Each
3 to 4 ft.....	\$1.00
4 to 6 ft.....	1.25

AMERICAN SWEET—Makes a handsome shade tree, full medium size, very sweet and well flavored.

FRANQUETTE ENGLISH WALNUT

SPECIAL SORTS

Prices:	Each	10
No. 1 Plants.....	75c	65c

CACO—The new red grape. Of exceptional merit. Earlier than Concord. Wine-red, compact bunch, good size, hardy, thrifty grower. Good arbor variety.

FREDONIA—This new blue-black grape was originated and thoroughly tested by the New York Experiment Station. Ripens 15 days before Concord. Very large berries on compact bunches; spicy, sweet flavor and fragrant. Vines are hardy, thrifty, and heavy producers.

GOLDEN MUSCAT—Choicest golden amber-white grape for your fancy desserts and wines. Large, somewhat oblong berries in large, compact bunches. Rich, sweet, mellow, aromatic Muscat flavor. Wonderful keeper, shipper and producer.

ISLAND BELLE—Ripens middle of August to September. Keeps sound and perfect both on and off the vine for weeks, after other grapes are gone. Both clusters and berries are large, glossy black with attractive blue bloom; sweet and juicy. Stands at the head of early black grapes for quality.

EUROPEAN VARIETIES

Prices: European Sorts

Prices:	Each	10
No. 1 Plants.....	50c	40c

MUSCAT OF ALEXANDER—Large, long, somewhat loose bunch; berries elongated, slightly oval, amber color when ripe; flesh firm and brittle, sweet, rich, sugary. Used largely for raisins. September.

THOMPSON SEEDLESS—The best known seedless grape; widely planted for raisins, market and home fruit as well. Large bunch of rather small, amber-yellow berries; sweet and mild.

TOKAY—Very large bunch and berry, thick skin, pale red covered with bloom; firm, sweet flesh. An old standard table variety. October.

SWEETWATER (White)—Medium size, sweet, rich flavor.

CACO GRAPE

GRAPES

ALWAYS BEAR

Have Plenty of Grape Jelly, Jam and Juice

Several tons of graps are harvested to the acre. Planting them 8 feet by 8 feet requires 680 plants to the acre.

HARDY AMERICAN GRAPES

Prices:	Each	10
No. 1 Plants.....	50c	40c

Special prices on large orders.

CAMPBELL'S EARLY—Handsome black berries with purple bloom; rich, keeps very well.

CONCORD—Fine black variety; juicy and sweet, splendid flavor; reliable and productive. One of the most popular and adaptable varieties. The standard grape in many sections.

WORDEN—Seedling of the Concord, which it greatly resembles in appearance and flavor, but the berries are larger. The fruit is better flavored and ripens earlier than the Concord.

NIAGARA—Very large, round, golden white grape of musky flavor, grown in large, compact bunches. Ripens same season as Concord and is often called the "White Concord". Very hardy and prolific.

AGAWAM—Large bunch, red berries, tender and juicy; ripens early. Good bearer. A very fine table grape.

GOLDEN MUSCAT GRAPE

STRAWBERRIES, EVERBEARING

RASPBERRIES

A GOOD IN-BETWEEN CROP. EASY TO GROW FOR HOME OR MARKET

(Finest of Clean, Healthy Plants, Guaranteed)

	Each	10
No. 1 Plants.....	\$.20	\$1.75

RED:

WASHINGTON—New, produces a very heavy crop of berries that are slightly larger than Cuthbert, firmer and brighter color. Disease resistant.

CUTHBERT—Very hardy, medium to large, firm and of excellent flavor, good shipper, at present the leading main crop raspberry.

NEWBURGH—New, the finest red raspberry. Its berries are large, heavy yielder, good shipper, and has rugged upright canes. Similar, but decidedly better than Latham.

WILLAMETTE—A new Red Raspberry of exceptional quality. Price: Each 35c; \$3.00 per 10.

EVERBEARING

INDIAN SUMMER—A new two-crop Red Raspberry. The berries are large, medium red and of high quality.

BLACKCAP RASPBERRY

MUNGER—Berries are large, attractive, firm and of the highest quality; rich, sweet and produced in abundance. Bush is hardy and vigorous grower.

STRAWBERRIES

	25	100
Prices	\$1.25	\$3.00

DORSETT—A new early, firm and productive berry of high quality.

IMPROVED OREGON — Northwest favorite mid-season strawberry.

MARSHALL—High quality home canning and commercial variety for the West.

CORVALLIS—Oregon State College introduction. A choice late variety.

RED HEART—Late. A solid red berry of exceptional canning quality.

EVERBEARING STRAWBERRIES

	25	100
Prices	\$1.50	\$4.50

MASTADON — Produces large, firm and juicy berries continuously through spring and summer.

GEM—New. Large rich red berries produced over a long season. A favorite.

ROCKHILL NO. 26 EVERBEARING

	10	25	100
Prices	\$1.50	\$3.00	\$10.00

A very productive plant of sweet, rich red berries. Plants bear young and over a long season, making it an outstanding variety for small home plantings and for barrel planting. This variety does not produce runners and is propagated by crown divisions.

STREAMLINER EVERBEARING

	10	25
Prices	\$1.50	\$3.75

A new introduction of excellent quality. Firm, rich, radiant red, highly flavored berry with excellent canning and freezing qualities. Sturdy plant with luxurious green foliage. Supply limited.

RASPBERRIES

BLUEBERRIES

THORNLESS BERRIES

Prices:	Each	10
1 year tip plants (Spring only).....	35c	\$3.00
2 year transplants.....	50c	4.00

Acme Thornless Youngberry (Plant Patent No. 4.)

Superior to the parent thorny type to the extent that the hard punishing and annoying thorns are not present. In other respects there is little difference. Berries ripen a few days earlier.

Thornless Loganberry (Plant Patent No. 82.)

This new berry has proven far more productive and the berries are larger than the old thorny type of loganberry. A delightful, highly flavored berry of dark red color. The canes are larger and entirely thornless.

Thornless Boysenberry

This thornless strain has retained all the good characteristics of its parent, including its rugged, thrifty growth and hardiness. You can handle these canes with your bare hands and enjoy picking the large attractive fruits.

Nectarberry

(Price same as Thornless Varieties.)

Richest flavor of all. Heavier yielding over a long period. Fruits average even larger than Boysenberries.

BLUEBERRIES

Each
3 year No. 1 plants.....\$1.25
Special prices on large orders.

RANCOCAS — Early, large berries, strong grower, good commercial berry.

RUBEL—Midseason, berries medium size, flavor good, produces enormous crops.

GROVER—Late, attractive bush, berries large, delicious.

UN-NAMED VARIETIES — 10c per plant less.
(Fruiting over long season, are very desirable.)

YOUNGBERRY

Each 10
Heavy No. 1 Plants.....35c \$3.00

The fruit is very large and very juicy, with a rich blended flavor that is pleasing to nearly everyone. The color so very dark red that it is nearly black and the seeds are few in number and soft. The vines are vigorous.

LOGANBERRY

Each 10
Heavy No. 1 Plants.....\$.35 \$3.00

The fruit is large, long, an attractive red color, and although it is a little sour it is highly prized by a very great many people for jams and jellies and for mixing with raspberries and other berries in jams and preserves. The vines are trailing and have to be grown on trellis.

BOYSENBERRY

Each 10
Heavy No. 1 Plants\$.35 \$3.00

An immense new berry produced by crossing blackberries, raspberries, and loganberries. The flavor is a very pleasing blend of these varieties. It has few and soft seeds. The Boysenberry consistently produces heavy crops, bears young, and the fruiting season lasts two months. The vines are most hardy.

BOYSENBERRY

OREGON CHAMPION GOOSEBERRIES

GOOSEBERRY

Prices: Each 10
 Heavy No. 1 Plants\$.35 \$3.00

OREGON CHAMPION—Berries medium, round, smooth, greenish-white with thin transparent skin; good quality and ripens early; bush vigorous and very free from mildew.

CURRANT

CURRANT

Prices: Each 10
 Heavy No. 1 Plants\$.35 \$3.00

PERFECTION—Bright red. It is one of the most productive currants. Rich, mild, sub-acid flavor and having plenty of pulp with few seeds.

CHERRY—The largest of all red currants; berries sometimes more than one-half inch in diameter; bunches short; plant very vigorous and productive.

RHUBARB

Prices\$.25 Each 10 \$2.00

The following varieties are best for the West Coast:

RIVERSIDE GIANT—Extra large, fine for canning.

CHERRY—This variety has large bright red stalks which are of splendid quality.

STRAWBERRY—This variety produces great numbers of stalks. It is the strongest grower and is more hardy. The stalks are a lighter pink.

HORSERADISH ROOTS

Horseradish thrives everywhere.
 Prices: Each 25c; 10 for \$2.00.

MARY WASHINGTON ASPARAGUS

ASPARAGUS

Prices: 10 25 100
 2 Year No. 1\$.60 \$1.00 \$3.50

MARY WASHINGTON—Rust resistant. The shoots are large, very vigorous, straight and of superb quality. Dark green. A good variety for both the home gardener and commercial grower.

FLOWERING SHRUBS

Prices:	Each	3 for	12 for
Strong No. 1 Plants.....	\$1.00	\$2.75	\$10.00

FLOWERING SHRUBS give the finishing touch so much required by small and large home-grounds. When properly arranged, shrubs will soften the lines of the foundation, will provide an effective border or screen, will cover the edges of walls and screen objectionable views. Shrubs may also be used for covering slopes and for dividing the landscape into small sections, and for bordering the outdoor living-room of small homes. A selection of varieties will give a succession of flowers from spring until late autumn and after the foliage has fallen the brilliant berries and branches add color and cheer to the winter landscape.

ALTHEA (Rose of Sharon)

Bright glossy leaves; flowers similar to a rose. Hardy summer and fall blooming shrub. Double white, double pink, double purple, and double red.

BARBERRY

Japanese Thunbergi—An excellent group plant or for hedging. Foliage turns to a bright crimson before falling. Red berries.

Thunbergi Atropurpurea—Same as above except the foliage red at all times.

BUTTERFLY BUSH (Buddleia)

An attractive shrub of spreading pendulous habit of growth; the branches tipped with long spikes of charming perfumed blossoms.

Ile de France—Large flowers of rich, reddish-purple, borne in long panicles.

Dubonnet—A new dark wine. Large spikes and individual flowers of good size.

Concord—A new dark red Buddleia with blood-red eye shading lighter to edge of petals.

Fortune—Flowers of pure lilac with a brilliant orange eye.

Charming—Long sprays covered with lavender-pink blooms.

BEAUTY BUSH (Kolkwitzia)

In the spring, the graceful, arching branches of this fine shrub are completely covered with lovely pink flowers. The foliage itself is very attractive.

CORALBERRY

Symphoricarpus Vulgaris—A slender branched upright shrub for shady places. Fruit is purplish red and hangs on well into winter; flowers small, rose colored.

BUDDLEIA, CHARMING
(BUTTERFLY BUSH)

LONICERA MORROWI; PHILADELPHUS VIRGINALE; VIBURNUM OPULUS

CRANBERRY BUSH (Viburnum Opulus)

Tall growing snowball, producing red berries during late summer and fall.

DEUTZIA

Rosea—White flowers tinged with pink on backs of petals, giving the plants a pink effect.

Gracilis—A dwarf compact form with clear white flowers.

Pride of Rochester—Tall growing, white flowers tinged rose on back.

FLOWERING SHRUBS (Continued)

HYDRANGEA

Otaksi—Profuse double blue blossoms. Low and slow growth. Heavy clumps. \$2.00 each.

Aborescens (Hills of Snow)—Showy flower heads from June to cold weather.

Paniculata Grandiflora—Large cone shaped flowers of white in August, changing to pink as the flowers ripen.

Tree Hydrangea—Same as above, but grown in tree form. 3-4 ft. \$2.00 each.

QUINCE

Japonica—A very fine old plant that should find a place in every garden. Red, pink, and variegated.

FORSYTHIA

All varieties are grown for their pretty bright yellow flowers very early in the spring, ahead of their leaves.

Fortunei—Upright heavy arching branches.

Intermedia Spectabilis—Largest, darkest flowers. Most profuse bloomer.

HONEYSUCKLE

Morrowi (Bush Honeysuckle)—An upright grower with pure white flowers.

Pink Tartarian—Similar to above but with pink flowers.

KERRIA

Japonica—Slender upright stems and branches. Double orange flowers in the early spring and continue intermittently throughout the summer.

PHILADELPHUS

Lemoinei—Rich foliage and large pure white fragrant flowers.

Virginalis—Semi-double flowers blooming very freely in spring and intermittently all summer.

SNOWBALL

Opulus Sterile—The old fashioned snowball that blooms in May.

Tomentosum Plicatum (Oriental Snowball)—Showy clusters of double white flowers. \$1.50 each.

BEAUTY BUSH

SPIREA

Anthony Waterer—Crimson flowers blooming profusely all summer if spent flowers are kept cut away.

Thunbergi—A beautiful display of white flowers in the early spring ahead of the leaves. Soft feathery foliage.

Van Houtte—Upright, tall growing with flowers in white clusters.

TAMARIX

Africana—A beautiful shrub with small feathery foliage. Delicate pink flowers.

Hispidia—Bright pink flowers, June-July. Very hardy.

WEIGELIA

Rosea—Bright pink bell-shaped flowers.

Eva Rathke—Dwarf form with red flowers. Blooms continuously throughout the summer.

SPIREA, ANTHONY WATERER

FORSYTHIA FORTUNEI

CYDONIA JAPONICA, JAPANESE FLOWERING QUINCE

FRENCH BUDDED LILACS

FRENCH BUDDED LILACS

The French Lilacs are far superior to the old variety, or common Lilac. They produce immense clusters of high colored, fragrant blossoms, and bloom at an early age. We have them in both Double and Single type, in an assortment of colors. Two or more colors grouped together make an unusually attractive display.

Planting Note: Plant the union of top and root stock about four inches below the surface of the soil.

LILACS

Prices: Each
18-24 inch plants.....\$1.00

Alphonse Lavallo—Pyramidal clusters of double bluish lilac flowers.

Belle De Nancy—Great panicles of double satiny rose blooms.

Buffon—Single pink; large clusters of blossom.

Charles Joly—Double purplish-red; attractive.

Congo—Single wine-red. Large blossoms.

Henri Roberts—Large double flowers of purplish-blue.

Lamarck—Double pink-mauve. Very choice.

Leon Ganbette—Double bluish-purple. Extra large.

Lucie Baltet—Single coppery-rose.

Massena—Large flowers of single reddish-purple.

Mme. Abel Chatney—Choice double creamy-white.

Mme. Lemoine—Double pure white. Erect; tall.

Mont Blanc—Fragrant single white. Very good.

Oliver de Serres—One of the best double deep blue.

Pres. Lincoln—Large single blue.

Pres. Vigor—Large double blue.

Prodige—Single purplish-red. Very large flowers.

Stan. De Rothpletz—Very choice, double deep purple.

Vesuve—Large single deep purple.

Wm. Robinson—Blue, light lavender inside. Most double of all.

DOUBLE FLOWERING ALMOND

Prices:
2-3 ft., \$1.00; 3-4 ft., \$1.50.

These well known bushy shrubs never fail to produce in early spring, before the leaves appear, a profusion of small, very double, pink or white, rose-like flowers that are closely set along the branches. Choice of pink or white.

FLOWERING ALMOND

PINK FLOWERING DOGWOOD

Pink flowering variety which is greatly in demand.
Prices: 2-3 feet, \$2.50; 3-4 feet, \$4.00.

ROSE-FLOWERING CHERRIES

Price: 5 to 6 ft. Branched Trees, \$2.00 each.

Among the flowering trees the rose-flowering cherry takes the lead. They vary in form and therefore may be adapted to many uses in landscape work. Some are vase-form, others pyramidal in growth, but most sorts have wide-spreading branches, vigorous in growth, and still others are rather dwarfish. Nearly all are tinted various shades of pink, and a few are white. Trees are hardy. While known and used in the Orient for hundreds of years, these valuable trees are rapidly becoming popular and gaining favor in the United States. Both upright and weeping growth.

Kwanzan. Double, rose-pink. Handsomest of all the double flowering cherries. Blooms just after the middle of April (depending somewhat upon locality.) The tree is upright and spreading, and at maturity 25 to 30 feet high. Leaves and flowers appear simultaneously. The buds are red, and the fragrant, rich, rose-colored double blossoms are borne in clusters. Flowers are very large, up to 2 inches in diameter. A graceful and beautiful tree for the lawn or grounds: also adapted for planting in parking strips and along avenues.

Shirofugen—15 ft. Has the very largest flowers of any variety that we grow, deep pink in the bud and pale pink in the open flowers. It is almost impossible to describe the beauty of this tree when in full bloom.

Mount Fuji—Pure white; remains attractive; calyx turning reddish with age. A bushy, small tree, hardy, extremely floriferous.

WEeping CHERRY

No. 1 heads, about 6 feet tall, \$3.50.

Single Pink Weeping Cherry.

Double Pink Weeping Cherry.

One of the finest weeping trees for lawns and small grounds. The branches are slender and when grafted on tall stems, fall gracefully to the ground. The flowers are rose-colored, appearing before the leaves.

NOTE: Unless otherwise specified, weeping trees will be trimmed, to avoid breakage in shipping. (Trees should be trimmed before planting.) If tree is to be shipped untrimmed, please add \$1.00 for packing.

WE PAY ALL SHIPPING CHARGES

We encourage you to take advantage of our Freight Paid Service. However, if you are in the vicinity of Forest Grove, or plan a trip to the seashore by way of Wolf Creek or Wilson River highway—please visit our Display Grounds.

FLOWERING CHERRY, KANZAN

BIRCH

Cutleaf Weeping—A very graceful and clean appearing tree with its white bark and slender drooping branches and deeply cleft leaves, 4-6 ft., \$1.50; 6-8 ft., \$2.50.

European—Leaves similar to Poplar. White bark and of pyramidal form. A fine street tree and very hardy. 5-6 ft., \$1.50; 6-8 ft., \$2.00.

CUTLEAF WEEPING BIRCH

FLOWERING CRABAPPLE

FLOWERING CRAB (*Malus*)

Prices: 5-6 ft. branched \$1.50 Each.

Producing flower effects equal to those of more talked-of cherries. The crabs are hardy and add a charm of fragrant wildness to a planting.

They are extremely hardy and will thrive in positions and exposures which would be fatal to the more delicately constituted cherries. They also exhibit a greater variety in character of tree, a wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet, and crimson. No other flowering trees equal the flowering crabs in profusion of bloom, and among other good qualities, varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

Atrosanguinea—In early May, every twig and branchlet of the Carmine Crab is covered with clusters of dark pink, almost crimson flowers. It is somewhat taller than other crabs and is a handsome lawn specimen. Ultimate height 15 feet or more.

Bechtel's—The flowers are a beautiful shade of pink, are large, very double and fragrant, resembling little roses. It blooms somewhat later than most varieties.

Dolgo—Hardy fiery red crab, desirable for culinary uses; bears young and abundantly. Good for ornamental purposes.

Eleyi—Attractive reddish foliage in spring changing to pink. Clustered single rose-pink flowers followed by showy red fruit.

Floribunda purpurea—Its purple foliage and bark, single crimson flowers and fruit make it a distinct departure from the ordinary. The flowers and fruit are carried on long, pendulous stems and are produced in great abundance. A strong grower.

Hopa—A beautiful, upright growing tree with attractive foliage. Entirely covered with rose-colored flowers in April. Fruit red inside and out, hanging on until late autumn. Very hardy and free from disease. Planted extensively.

Niedzwetzkyana—A very interesting variety with purplish foliage which makes a very pleasing contrast when used with other flowering crabs or any other flowering trees or shrubs. Bears large edible fruit.

Parkmani—An irregular shaped little tree when young, Parkman's Crab assumes a most attractive picturesque habit as it grows older. The flowers are bright rosy red, double, and droop gracefully on threadlike pedicels. It is a gorgeous ornament to any planting, and has long been a favorite.

Scheideckeri—The flowers of Scheidecker's Crab are double, bright pink, last a long time, and the fruit, which is produced in great profusion, is waxy yellow. The tree has a regular pyramidal habit, about 15 feet high. Best and easiest to flower.

Spectabilis (Chinese Flowering Crab)—Growth decidedly erect and vase-like. Flowers double, fairly large and light pink, followed in autumn with beautiful red fruit.

ELM

Chinese (*Ulmus Pumila*) — A rapid growing tree with a dense head. Extremely hardy. 5-6 ft. \$1.50 each; 6-8 ft. \$2.00 each.

PURPLE-LEAVED FLOWERING PLUMS

Prices: 5-6 ft., \$1.50 6-8 ft. branched, \$2.50.

Small growing, distinct ornamental trees used as specimens or grouped with other trees and shrubs in border or background. Their foliage produce beautiful tones of purple, very attractive where colored effects are desired. The varieties differ in pink, white, single and double blossoms.

Bliriana—Upright growth with dark purple foliage. The blossoms appearing early in May, are deep pink, double and fragrant. The shape and size resembling the Flowering Almond blooms. This is one of the best varieties. Twelve to fifteen feet at maturity.

Pissardi—Beautiful purple foliage, retaining its color well through the season. It has attractive pale pink flowers in May. Edible fruit excellent for jelly. Fifteen to twenty feet at maturity.

Vesuvius (Burbank's Purple Leaf Plum)—Foliage larger and more reddish than *Prunus pissardi*. Flowers are slightly larger and later. A very brilliant decorative tree.

Thunder Cloud—This and the *Vesuvius* have the most beautiful foliage of any of the flowering plums. The leaves appear a rich red color and gradually become darker, turning to a very rich purple.

BOXELDER

Silver Variegated—Very showy and will stand out very bright in a planting. Grafted trees, 5-6 ft. \$2.00 each.

CATALPA

Speciosa (Western Catalpa)—A rapid growing tree with very large leaves, a nice clean bark and large white flower heads followed by long bean-shaped seed pods. 6-8 ft. trees, \$2.00.

GOLDENCHAIN (*Laburnum Vulgare*)

Beautiful small tree with clover-shaped leaves; flowers are fragrant long chains of golden yellow. 5-6 ft. \$2.00 each; 6-8 ft. \$2.50 each.

LINDEN (*Basswood*)

European—Large, full heads. Large leaves similar to Catalpa. A good street tree. 5-6 ft. \$2.00 each.

HAWTHORNE

Prices: 4-6 ft. branched \$1.50; 6-8 ft. branched \$2.50

Paul's Double Red Flowering Hawthorne—Has wide spreading, irregular, spiny branches, the head about equaling the height in diameter. In May it is very decorative with an abundance of double carmine-red flowers, followed by red fruit.

FLOWERING PLUM (*Prunus Bliriena*)

LOCUST (*Robinia*)

Honey Locust (*Gleditsia Triacanthus*)—Of much slower growth than the black locust. Small round leaves similar to pepper trees. Very attractive and desirable as an ornamental tree. 6-8 ft. \$2.00 each.

MOUNTAIN ASH (*Sorbus*)

Aucuparia—Narrow erect tree. Beautiful clusters of red berries in August. 5-6 ft. \$1.50; 6-8 ft. \$2.00 each.

POPLAR (*Populus*)

Lombardy (*P. nigra italica*)—Tall, narrow growth. With age becomes one of the most striking and picturesque trees. 6-8 ft. \$1.50.

LOMBARDY POPLAR

FLOWERING PEACH

REDBUD

Cercis Canadensis—Similar in effect to Hawthorne but of more regular growth. Clusters of rosy pink flowers cover the plant in May. 6-8 ft. \$2.00.

TULIP TREE (Liriodendron)

Tulipifera—Handsome upright tree with bluish green foliage and greenish colored, tulip shaped flowers. 5-6 ft. \$2.00 each.

WILLOW (Salix)

Babylonica—The most effective large growing tree of all. 5-6 ft. \$1.50; 6-8 ft. \$2.00 each.

Niobe—Golden bark, graceful weeping habit. 5-6 ft. \$1.50; 6-8 ft. \$2.00 each.

FLOWERING PEACHES

For an easily and quickly obtained mass of spring color, there is nothing to excel the Flowering Peaches. They will grow with the greatest ease anywhere and never fail to produce a great profusion of bloom. Not only are the trees a source of great admiration in the garden, but the trees enjoy having their branches cut for indoor use. (Spray with Bordeaux.)

Price: 4-5 ft. branched, \$1.50.

Double Red—Rich ruby-red. Very large blooms.

Double Pink—Large double pink flowers. Strong growing tree.

WEeping PEACHES

Prices: No. 1 Heads, \$2.50 Each.

Double Red Weeping and Double Pink Weeping.

PLANE TREE, Platanus (Sycamore)

Orientalis—An evenly branched tree with rather broad head. A fine stately type. 5-6 ft., \$1.50 each; 6-8 ft., \$2.00 each.

MAPLE (Acer)

Norway (Platanoides)—Large rapid growing tree that will cast a dense shade. 5-6 ft., \$1.50; 6-8 ft., \$2.00.

Schwedler—Very similar to the Norway maple except the leaves are purple. 5-6 ft., \$1.50; 6-8 ft., \$2.00.

Dasycarpum (Silver Maple)—Rather slim type with silvery bark and light green leaves. 5-6 ft., \$1.50 each; 6-8 ft., \$2.00 each.

Lace-Leaf Silver Maple—A most beautiful tree, with finely cut silvery foliage. The slender branches give this tree a graceful appearance equal to Cutleaf Weeping Birch. 5-6 ft., \$1.50; 6-8 ft., \$2.00.

PURPLE FRINGE, or SMOKE TREE

A small tree or shrub, very much admired on account of its peculiar fringe or hair-like flowers, covering the whole surface of the bush in mid-summer.

Prices: 3 feet, \$1.50.

(Silverleaf)

MAPLE TREES
(Schwedler)

(Norway)

VINES

IVY

Boston—Dainty, lovely vine with small overlapping leaves, forming a dense sheet of deep green, turning in the fall to bright scarlet. Clings tightly to any surface without support. 2-yr. plants, 75c.

English—The best for bank covering. 2-yr. plants, 75c.

VIRGINIA CREEPER

Dense, green foliage turns bronzy red in autumn. Clings to walls or any support. 2-yr. plants, 75c.

HONEYSUCKLE

Hall's Japan—Old-time favorite. White and yellow, fragrant flowers last nearly all summer; foliage almost evergreen. 2-yr. 75c.

Scarlet Trumpet—Handsome clusters of scarlet flowers. Hardy, vigorous climber. 2-yr. 75c.

HEDGE PLANTS

Can you imagine anything more beautiful and fascinating than a living fence?

BARBERRY

Thunbergi—An excellent barrier to 30-36 inches. Leaves turn a brilliant red in the fall. 15 to 18 in. 10 to 25 plants @ 35c ea.; 26 to 100 plants @ 30c ea.

Thunbergi Atropurpurea—Same as above except the leaves are red all summer. 10 to 25 plants @ 45c each; 26 to 100 plants @ 40c each.

BOXWOOD

Suffruticosa (True Dwarf)—Just the thing for formal gardens. No. 1 hedge grade. 10 to 25 plants @ 50c each; 25 to 100 @ 40c each.

LAUREL

English—Best for large hedge. 12-18 in. plants: 10 to 25 @ 50c each; 26 to 100 @ 40c each.

PRIVET

California—A rapid grower and makes a full compact hedge. Same price as English.

English—One of the best. 18-24 in.: 10 to 25 plants @ 20c each; 26 to 100 plants @ 15c each.

CLEMATIS

Jackmani—The giant purple Clematis, and favorite everywhere. 2-yr. plants, \$1.00.

Henryi—Large sized lustrous white flowers. 2-yr. plants, \$1.00.

Mad. Ed. Andre—Large, velvety red flowers. 2-yr. plants, \$1.00.

Paniculata—Luxuriant grower, with fine foliage and an abundance of small, white, fragrant flowers. 2-yr. plants, 75c.

CLEMATIS, MME. EDOUARD ANDRE

WISTERIA

WISTARIA (Grafted)

Purple or White—The most magnificent of all vines. Lasts for generations, becoming more beautiful each year. 2-yr. plants, \$1.25 each.

BITTERSWEET

Favorite, with bright glossy foliage, bearing sprays of bright orange berries in the fall. 2-yr. plants, 75c.

SILVER LACE VINE

Beautiful, quick growing vine, with rich, glossy green foliage, and a mass of feathery white bloom. 2-yr. plants, 75c.

HOW TO PLANT EVERGREENS

1. DIG A HOLE ONE FOOT LARGER AND DEEPER THAN THE BALL OF EARTH ON YOUR EVERGREEN. PROVIDE GOOD, LOAMY TOP SOIL TO FILL AROUND BALL.

2. SET SHRUB TRIFLE LOWER THAN IT STOOD IN THE NURSERY.

3. TAKE GOOD TOP SOIL YOU HAVE PREPARED FILL UP AROUND BALL PACK FIRMLY WITH FEET OR SETTLE BY FILLING HOLE WITH WATER.

4. LOOSEN BURLAP AT TOP OF BALL AND ROLL BACK OR CUT OFF.

5. THEN FILL HOLE WITH SOIL. PACK FIRMLY AND LEAVE TOP OF GROUND COVERED WITH LOOSE EARTH, OR MULCH WITH STRAW, WELL-ROTTED MANURE.

TREE PROTECTORS

We recommend the use of Tree Protectors for young trees. Filbert and Walnut trees in particular should be protected from the sun rays the first year or two, to prevent sunburn. Protectors are your best insurance against this, the most prevalent of all serious injuries to young trees.

Protection Against Sunburn, Rabbits, Squirrels, Scraped Bark.

Prices: (FREIGHT PAID)

18 inch	Per 1000 \$17.50	Per 100 \$2.50

HOW TO PLANT FRUITS. BERRIES. ASPARAGUS

TREES should be planted as soon as possible after they arrive. Keep moist until planted. Do not expose roots unnecessarily to sun or wind. If not planted immediately "heel-in" in moist soil.

①

COVER with wet burlap or wet newspaper until planting holes are ready.

②

PRUNE all broken roots with a sharp knife or pruning shears. Make a clean cut—they heal quickly. Never pull broken pieces off.

③

SPREAD roots out in a natural position and tamp soil firmly about roots. Water well.

④ **PRUNE THE TOP GROWTH.** Young trees may have from one to several small twigs when planted. These develop into the main branches later on.

It is important to carefully select the branches to leave so that the top of the tree will be well balanced, sturdy and strong. Heavy bearing trees should be disbudded for larger, finer flavored fruits.

TOP VIEW

BERRIES may be planted as hedges, but sprawly kinds like blackberries (Boysen, Young, and Logan) are better trained on trellises. Their dense growth covers the trellis and fruits appear on the surface.

STRAWBERRIES.

Space 1 ft. apart each way. For the home garden 3 feet is a good width of bed—any length—for wider beds allow walk at 3-foot intervals.

ASPARAGUS. Plant in furrows or trenches. Roots should be 6 to 8 in. deep, but when planted cover only 2 to 3 in. and later in season fill in the remainder. Cut very lightly second season; full crop third year. Three feet between rows.

Strawberries used as cover on dry wall. Plant in intersections of blocks in good soil. Face sun.

PLANTING SUGGESTIONS

We are interested in your success with every tree or plant we send out; we exercise the greatest care to place every item in the hands of our customers in the best possible condition, and in order to furnish some precautions and provide for complete satisfaction, we give a few hints on such points as are most essential.

TIME TO PLANT—Trees and plants usually become dormant about the 1st of November, and may be planted throughout the fall, winter and spring months. Fall and winter planting is preferred for the reason that the roots become established during the winter months, and are ready to make a vigorous growth when warm weather begins. However, excellent results are obtained with early spring planting.

CARE OF TREES ON ARRIVAL—Unless you are prepared to plant them immediately upon arrival, dig a trench large enough to accommodate the roots; cut the bottom string, and spread the roots carefully, firming the soil about them. **DO NOT PERMIT THE ROOTS TO DRY OUT OR FREEZE.**

PREPARING TREES FOR PLANTING—Don't fail to cut the top back (see illustration). This is necessary in order to balance the top with the loss of roots which always takes place when a tree is dug from the nursery. Trim each root back about one-half inch or so with a sharp knife, and cut off all broken or bruised roots.

PLANTING—Dig the hole larger than is necessary to admit all the roots in their natural position; then having the tree pruned as directed, hold it in an upright position, and shovel the soil, carefully putting the finest and best dirt from the surface in among the roots, bringing every root in contact with the soil, firming gently with the foot. The tree should be planted about the same depth it was in the nursery row; this may be determined by the change of color in the bark.

Commercial and natural fertilizers are valuable when properly used. Do not let strong fertilizers come in direct contact with the bare roots.

WATERING—Artificial watering is highly desirable. Do not sprinkle, but give the plant all the water it will take at one time. No more water need be applied for several days when this is done.

SUBSTITUTION: Please state when ordering an assortment whether substitution will be allowed, as we feel at liberty, when no instructions accompany the order, to use similar or better varieties when we are out of the kinds named. We never substitute on large orders for commercial planting without consulting the customer.

GUARANTEE: We warrant our stock to be true to name and will replace free of charge or refund purchase price, should any prove untrue to label. It is, however, understood between the purchaser and ourselves that in no case will we be held liable for a greater sum than the original price paid for the trees that prove untrue.

Queen of Flowers

THE NEWER AND BETTER ROSES

AUTUMN—A combination of deep burnt orange and pink, streaked with red.

CONDESA DE SASTAGO—A brilliant bi-colored Spanish rose. Large cup-shaped flowers, with glowing scarlet inside of petals and intense bright yellow on the outside. Fragrant.

DAINTY BESS—Single-crikkled petals of apple blossom pink; dark stamens.

EDITOR McFARLAND—Long pointed pink buds with a glow of amber and a paler edge. Excellent for cutting.

ETOILLE DE HOLLANDE—One of the most popular brilliant crimson-red roses. Beautiful oval buds; large double flowers.

JOANNA HILL—A charming orange-yellow, vigorous growing, free blooming, fragrant rose.

MRS. E. P. THOM—Perfectly formed buds of a rich deep lemon yellow. A grand fragrant garden rose.

PINK DAWN—Deep rose buds opening to lovely pink blooms tinted with orange at the base of the petals. Sweetly fragrant, full double.

PRES. H. HOOVER—A glorious rose with charming color combinations of cerise-pink, flame, scarlet and gold. A very thrifty bush.

TALISMAN—A most popular rose; fine for cutting. A color combination of orange, yellow, rose-red and scarlet on a background of rich old gold.

PRES. H. HOOVER

DAINTY BESS

PINK DAWN

PATENTED BUSH ROSES

No. 1—TWO-YEAR FIELD GROWN BUSHES

FRED EDMUNDS (Pat. applied for)

APRICOT QUEEN (Pat. No. 464). A lovely combination of orange and apricot at the base of petals, merging to salmon rose. Long pointed buds, with regular well placed petal arrangement in the open flower. Handsome leathery foliage. Each \$1.25 postpaid.

CRIMSON GLORY— (Plant Pat. No. 105). Long pointed buds opening to large semi-double flowers of full deep velvety-crimson intensely fragrant and lasting. \$1.50 each.

ECLIPSE (Plant Pat. No. 172). Long stream-lined bud, enhanced by ornamental sepals, is of rich gold. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the autumn. \$1.25 each postpaid.

FRED EDMONDS (PP). Beautiful long-shaped buds of burnt-orange open to glorious 25-petaled blooms of vivid, glowing coppery orange color which slowly changes to apricot. The plants are rather spreading in habit and have a glistening, olive-green foliage. Each \$2.00 postpaid.

MME. CHIANG KAI-SHEK (PP). Buds large, long-pointed opening to long-lasting very large flowers of Empire yellow fading to lemon yellow as the flower matures. Excellent leathery, glossy dark green foliage covers this vigorous bush. Each \$2.00 postpaid.

APRICOT QUEEN (Plant patent No. 464)

MME. CHIANG KAI-SHEK (Plant patent applied for)

GRAND DUCHESS CHARLOTTE. (Pat. rights reserved.) Buds a rich claret red changing as the flower opens to a lovely begonia rose. Richly fragrant and unusual in color. \$1.50 each postpaid.

LOWELL THOMAS. (Pat. No. 595.) Very double high centered flowers of a lasting canary yellow. Large, long-pointed buds. Vigorous compact bush of upright habit and leathery foliage. \$2.00 each postpaid.

PEARL S. BUCK. (Pat. No. 423.) Leathery dark green foliage makes a perfect foil for the long-pointed buds of a rich orange blue which open to a soft gold suffused with apricot. The plant is generous and free-blooming and the long stems are fine for cutting. Each \$1.50 postpaid.

TEXAS CENTENNIAL. (Plant Pat. No. 162.) A sort of President Hoover with all its wonderful plant qualities. The color is cerise-red. \$1.00 each postpaid.

BEAUTIFUL CLIMBING ROSES

Price: 2-yr. No. 1, \$1.00 each.

For the trellis, porch or arbor, the Climbing Roses produce a most wonderful covering of delicate foliage and delightful flowers.

CLI. MME. CECILE BRUNNER—Small, perfectly double, exquisitely formed soft rose-pink flowers borne in clusters. A vigorous climber and a persistent bloomer.

CLI. MRS. E. P. THOM—A climbing sport of this choice rich deep lemon-yellow rose.

CLI. TALISMAN—A climbing sport of the popular bush form. A mixture of orange, yellow, rose-red, scarlet and gold.

PAUL'S SCARLET—The most popular of all red climbing roses. Vivid scarlet flowers of large size, produced in clusters.

RUTH ALEXANDER. (Plant Pat. No. 178.) Long pointed buds of cadmium orange, topped with peach red. The sepals hold tight to the petals, which adds greatly to its beauty. The open flower is a soft orange, with brick red stamens. \$1.25 each postpaid.

ROSES—Trimming and Transplanting

TRIMMING and transplanting of bush and climbing roses should be done in February or the first part of March, after the cold winter frosts have passed. Bush roses should be pruned back to four or five inches from the ground, retaining only the youngest and most vigorous canes. Climbing roses should be pruned by cutting out all of the two and three-year canes at the ground, or as close as is practical. A good application of fertilizer worked well into the soil after pruning is also advisable, followed with a good soaking with water.

PONTICUM

RHODOENDRON, PINK PEARL

Azaleas

Azaleas prefer partially shaded location and acid soil. The *Mollis*, *Altaclarensis* and *Occidentalis* are medium size deciduous shrubs; very effective in group plantings or combined with evergreens. The *Hinodegiri*, *Macrantha* and *Sherwoodi* are dwarf evergreen varieties and very profuse bloomers.

HINODEGIRI—A dwarf evergreen type. Bright red flowers in April. 4-6 inch \$1.25; 6-8 inch \$1.75.

MACRANTHA—A low growing dwarf evergreen shrub producing large salmon-pink flowers in June. 8-10 inch \$2.00.

SHERWOODI—One of the hardiest evergreen types. Flowers clear lavender with speckled throat. 6-8 inch \$1.50; 8-10 inch \$2.00; 10-12 inch \$2.50.

MOLLIS (Chinese Azalea)—Very colorful large flowers of bright orange to flame. Very hardy. 9-12 inch \$1.50; 12-15 inch \$2.25; 15-18 inch \$2.75.

OCCIDENTALIS (Western Azalea)—A native of Oregon. Blossoms of pink to white with fragrance of honeysuckle. 12-15 inch \$2.25.

ALTACLARENCE—Deep orange. A Chinese azalea resembling *Mollis* except in color. 12-15 inch \$2.75.

AZALEA MOLLIS

Camellias

Beautiful wax-like flowers—Reds, Pinks, Whites and Variegated. Attractive glossy evergreen foliage provides a charming background. Camellias are sturdy growers and most desirable.

Postpaid Prices: 12 to 15 inch \$2.50; 15-18 inch \$3.00 (except as otherwise noted).

PINK VARIETIES

PINK PERFECTION—Very double, perfectly formed flowers of shell pink.

PINK LADY—Single, deep pink flowers of medium size.

KUMASAKA—Very large double, salmon-pink flowers. Very popular.

MAGNOLIAFLORA—Large semi-double, shading deep rose to light blush.

IL TRAMENTO—Large double, salmon-pink. Symmetrical, full double flat flowers. 12-15 inch, \$3.25; 15-18 inch, \$4.00.

SARAH FROST—Large semi-double deep pink.

GRANDIFLORA ROSEA—Single to semi-double, clear rose pink, prominent golden stamen. 12-15 inch, \$3.25; 15-18 inch, \$4.00.

PINK BALL—Irregular double, peony form flower of shell-pink. A free bloomer. 12-15 inch, \$3.25; 15-18 inch, \$4.00.

CAMELLIA, CHANDLERI ELEGANS

KUMASAKA

RED VARIETIES

CHEERFUL—Double rosy-red flowers. Free bloomer.

WAUKANOURA—Semi-double, rosy-red flowers. Prominent golden stamens.

RED DIAKAGURA—Large, loose-petaled double deep rose. Early, free blooming.

PROFESSOR C. S. SARGENT—Very double, deep scarlet flowers with pompom center.

ARAJISHI—Carnation-type flower, dark red, dark glossy foliage.

ELENA NOBILE—Brilliant flame-red flower. A late season bloomer.

PRINCESS BOCCIOCHI—Large, Peony-type, carmine red, brilliant yellow stamens. 12-15 inch \$3.25; 15-18 inch \$4.00.

POPE PIUS IX—Full double, symmetrical, brilliant orange-red color. 12-15 inch \$3.25; 15-18 inch \$4.00.

JULIA DRAYTON—Deep rose-red, fading to purple on edge of petals. 12-15 inch \$3.25; 15-18 inch \$4.00.

MONJISHU—Medium-size deep red flowers; golden stamens. 9-12 inch \$2.50; 12-15 inch \$3.25.

BLACK PRINCE—Dark maroon red, semi-double flowers. Rare. 12-15 inch \$3.25; 15-18 inch \$4.00.

PURPLE EMPEROR—Large deep rose, fading to purple. Very good. 12-15 inch \$3.25; 15-18 inch \$4.00.

NOTE—We have larger size plants of many varieties listed above; also additional varieties. If interested, please write for special Camellia list.

CAMELLIA, CHEERFUL

CAMELLIA, PINK PERFECTION

WHITE VARIETIES

PURITY—Large, double, ivory-white flowers showing yellow stamens.

MAGNOLIA ALBA—Semi-double, shell pink flowers fading to white.

JOHN DRAYTON—Large, semi-double, white with yellow stamens. 12-15 inch \$3.25; 15-18 inch \$4.00.

LOTUS (Grandiflora Alba)—Extremely large, semi-double white, golden stamens. 12-15 inch \$3.75; 15-18 inch \$4.50.

VARIEGATED VARIETIES

Duc D' Orleans—Peony form, white dotted-pink striped.

HERMES (Jordans Pride)—Large double rose, bordered white. Fragrant.

TRICOLOR SIEBOLDI—Medium large, semi-double white with rose blotches.

MONJISHU VARIEGATED—Deep red, rose type bloom, spotted white. 12-15 inch \$3.25; 15-18 inch \$4.00.

MIKENJAKU—Immense deep rose flowers splashed with white. 12-15 inch \$3.00; 15-18 inch \$3.50.

CHANDLERI ELEGANS—Large, rose-pink splashed white; peony center. 12-15 inch \$3.00; 15-18 inch \$3.50.
